

# FREE STANDING CABINET SERIES

## ■ ABOUT US

At XTND Connect, we are a leading provider of cutting-edge solutions in the field of fiber optics, networking equipment, IT/telecom racks and cabinets, cable pulling equipment, structured cabling products and accessories, and media converters. With a strong commitment to innovation, quality, and customer satisfaction, we have established ourselves as a trusted partner for businesses seeking reliable and efficient infrastructure solutions.

### Our Expertise

Whether you require high-speed fiber optic solutions, robust networking equipment, or reliable cabling products, we have the knowledge and resources to deliver exceptional results.

### Quality and Reliability

We conduct rigorous quality checks and tests on all our products to guarantee their durability and reliability in demanding environments

### Customer-Centric Approach

Our knowledgeable sales and support teams are always available to assist you in selecting the right products, answering your queries, and offering technical guidance at every step of the way.

### Sustainability and Responsibility

Our knowledgeable sales and support teams are always available to assist you in selecting the right products, answering your queries, and offering technical guidance at every step of the way.

# FREE STANDING VEGA SERIES

## XTND Vega Free Standing Cabinets

XTND Server cabinets; designed for data centers, system rooms and telecommunication. They are the appropriate solution for your heavy equipment with strong structure and 1000kg leading capacity. They can be customized. Keeps your servers safe by working smoothly with air conditioning, cable management and other intelligent system applications.

Colour Options

## Cabinet Structure

Vega series cabinets reach the maximum strength with 45-degree vertical profiles fixed to special design monoblock welded bottom frame with steel screws. It is an ideal solution for your heavy equipment with up to 1000kg loading capacity.

The cabinets could be mounted side by side. They are network and server cabinets, suitable for office system room, data centre, and cabling system installation. Compatible for all kinds of 19" brands and models network and server equipments

During installation and while conducting routine maintenance and repair of installed equipment; removable side panels rear door and the top plate allows to multiple easy access. Optimum depth for comfort cabling. server housing and equipment in the cabinets

Side panels, Front and rear doors are lockable and accessible With the same key. Front and rear doors could be detached and reversed to allow the door to open from the rear of the cabinet.

## U Numbering

U numbering is printed with serigraphy to the mounting rails of the cabinet which helps to index of the devices housed in the cabinet.

### Side panels

The side panel model of VEGA series cabinets allows easy removal of side panels during assembly, maintenance and repair. The cylindrical locking mechanism is used on the panels.

### The Additional Side Panels

The additional side panels are fixed inside the cabinet which increases the strength of the cabinet and creates space for the installation Of wiring and PDIJ accessories inside. Optionally, these panels could be perforated if additional ventilation is required in the cabinet.

## Fan Module

The Standard version of Vega series fan module mounted to the top sheet from inside the cabinet. Pagoda style top cover is optional and could be mounted to the standart cabinet Upon request, fan module can be assembled to the top sheet from outside the cabinet in this case pagoda style top cover is necessary

## To Cable Entry

In 600 width standard cabinets. there is no cable entry on the top of the cabinet.

In 800 width standard cabinets have 2 cable entry on the top with the dimension Of 60x300mm

### Rear Brushed Cable Entry

Brushed cable entry holes with 60mm 300mm dimensions are available on the top and bottom of the rear door for 26U and higher VEGA series free-standing cabinets as a standart..

### Bottom Cable Entry

Base sheet model for 600-width cabinets; on unperforated base sheet model with slide cable entry hall. The cables entering the cabinet are clamped without being damaged because of the cable entry module with rubber edge and maximum sliding distance. Protection against undesirable substances and dust that could enter under the cabinet is provided

In 800 width cabinets; additionally to the 600 width standard cabinets, two pieces 60 E 300 brushed cable entry halls are available that offers 3 different cable entry points from the base of the cabinet. If needed, the configuration can be changed.

### Side Horizontal Support Bar

Cabinets are supported by side horizontal support bar through depth and height directly proportional.

### Levelling Feet and Castors

Four levelling feet mounted to the bottom corner of the cabinet helps to adjust cabinet height and stability according to the ground condition. Castor set -2 castors with brakes-is optionally.

# FREE STANDING VEGA BASE SERIES

XTND Vega Basa Series cabinet; designed for data centers, system rooms and telecommunication. They are the appropriate solution for your heavy equipment with strong structure.

#### Colour Options

## Cabinet Structure

Vega series cabinets reach the maximum strength with 45-degree vertical profiles fixed to the solid bottom and top frame with steel screws. An ideal solution for your heavy equipment with up to 600kg loading capacity because of special designed 7 bent surfaces of corner profiles. Also, cabinets own a modular structure.

The cabinets could be mounted side by side. They are network and server cabinets; suitable for office, system room, data centre, and cabling system installation. Compatible for all kind of 19" brands and models network and server equipments

During installation and while conducting routine maintenance and repair of installed equipment; removable side panels, rear door and the top plate allows to multiple easy access. Optimum depth for comfort cabling, server housing and equipment in the cabinets

Side panels, Front and rear doors are lockable and accessible with the same key. Front and rear doors could be detached and reversed to allow the door to open from the rear of the cabinet.

## Rear Brushed Cable Entry

Brushed cable entry holes with 60mmx300mm dimensions are available on the top and bottom of the rear door for 26U and higher VEGA series free-standing cabinets as a standard..

## Side Panels

The side panel model of VEGA series cabinets allows easy removal of side panels during assembly, maintenance and repair. The cylindrical locking mechanism is used on the panels.

### Levelling Feet and Castors

Four levelling feet mounted to the bottom corner of the cabinet helps to adjust cabinet height and stability according to the ground condition. Castor set -2 castors with brakes- is optionally.

### Side Horizontal Support Bar

Cabinets are supported by side horizontal support bar through depth and height directly proportional.

### Top and Bottom Cable Entry

Base sheet model for 600-width cabinets; on unperforated base sheet model with 250\*300 slide cable entry hall. The cables entering the cabinet are clamped without being damaged because of the cable entry module with rubber edge and maximum sliding distance. Protection against undesirable substances and dust that could enter under the cabinet is provided.

In 800 width cabinets; in addition to the 600 width standard cabinets, On bottom and top of the cabinet have two 60 \* 300 brushed cable entry holes for each. That offers 3 different cable entry points from the bottom and 2 different cable entry points from the top of the cabinet.

### U Numbering

U numbering is printed with serigraphy to the mounting rails of the cabinet which helps to index of the devices housed in the cabinet.

### Additional Side Panels

The additional side panels are fixed inside the cabinet which increases the strength of the cabinet and creates space for the installation of wiring and PDU accessories inside. Optionally, these panels could be perforated if additional ventilation is required in the cabinet.

### Side Panels

The side panel model of VEGA series cabinets allows easy removal of side panels during assembly, maintenance and repair. The cylindrical locking mechanism is used on the panels.

# WALL MOUNTED **AGENA** SERIES

XTND Agena series wall mounted cabinets; serve the purpose of small or medium-sized network installation. Maximizing the load capacity and strength of the cabinet, the main carcass profiles riveted to the upper and lower frames of the cabinet's steel structure. Mounting rails can be adjusted along the depth of the cabinet as per your needs. The wall-mountable structure increases functionality and provides multiple solutions in small areas. In addition to heavy-duty structure, metal frame and glass front door completes elegant and aesthetic visuality.

#### Colour Options

### Easy Assemble

Due to the easily removable rear door; installation and assembling of the cabinet can be done easily on the ground or mounting areas. After completion of assembling, the cabinet could be easily mounted.

### Structure

Maximizing the load capacity and strength of the cabinet, the main carcass profiles riveted to the upper and lower frames of the cabinet's steel structure.

### Size Options

With two different depth dimensions (450mm - 600mm) and 5 different U height options (7U - 9U - 12U - 16U - 20U), with 10 different size options, AGENA series provides solutions for all kinds of needs about optimum volume and cost.

### Front Door

Front door model is full-length glass door with metal frame; 4mm smoked, tempered and high fracture resistance with cam lock. Front glass door with spring-loaded hinge system allows changing opening direction when required without any use of tools.

### Ventilation

Two ventilation holes on the top cover allow to passive ventilation by convection when the fan module is not assembled and active ventilation when the fan module is assembled.

### Cable Entry

3 way cable access provided by the cable entry holes on the rear panel, top and bottom sheet.

### Side Panels

Easily removable side panels with cam lock provide quick access to inside enclosure.

### Rear Door

There are mounting holes on the rear panel of the cabinets that can be used as fixing pattern. Due to this feature, cabinets could be fixed to the wall easily. After fixing the rear panel to the wall, the cabinet to be hanged over the rear panel. Rear panels are mechanically screwed to the main module from top and bottom by two screws for each.

### Multiple Access

By the ability of 3 ways Access of Agena series; assembly, maintenance and repair can be done easily.

### U Numbering

U numbering is printed with serigraphy to the mounting rails of the cabinet which helps to index of the devices housed in the cabinet.

# WALL MOUNTED SOHO SERIES

Soho cabinets; are used in small-sized network solutions with its solid and simple structure. It adapts to the usage areas such as offices, schools, bank branches, hospitals with its aesthetic visuality. Various network systems can be installed with 19" and 10" options.

### Width and Depth Options

Soho Cabinets offer 19" and 10" widths, 400mm and 300mm in-depth options.

### Aesthetics

Aesthetic and stylish design helps to adapt easily to usage places. Front glass is 4mm, smoked, tempered, high resistance to fracture and full-length with cam lock.

### Wall Mounting

After fixing the rear panel to wall, the cabinet to be hanged over the rear panel. Then cabinet's fixing to the wall is completed.

### Ventilation

Two ventilation holes on the top sheet allows to passive ventilation by convection when the fan module is not assembled and active ventilation when the fan module is assembled.

### Cable Entry

Cable entry can be provided in 3 way access through the cable entry points on the top cover, bottom cover and rear door of the cabinet. In one of these halls, there is a brushed cable entry and in the others, there are PVC dummy plates. To prevent dust entry; dummy plate can be replaced with a brush strip wherever the cables will enter.

### Volume

Soho Cabinets have all the internal volume needed for cabling of Switch, Router Patch, Panel, Socket and similar network equipment.

### Adjustable Mounting Rails

According to the dimensions of the devices to be used in the cabinet, mounting rails; can be moved at certain intervals and fixed to the required depth, thus inside of the cabinet is used most efficiently.

### Wall Type SOHO Series DOOR Options

AG	SH	07U	54	40	B1	C	B	A	A	A	M1
1	2	3	4	5	6	7	8	9	10	11	12

- Company product coding system's initial character is AG that stands for XTND.
- Product Series Code. SH stands for SOHO Wall Mounted.
- Numeric Character defining the height of the cabinet. Depending on model differences, between 06 to 12 height variety available. U Height Alphanumeric Notation is fixed, not editable. 1U is 44.45mm.
- The First two Digits of the width information. 30 for W=300 cabinets, 54 for W:540mm cabinets.
- The First two Digits of the depth information, 30 for D:300mm cabinets, 40 for D:400mm cabinets.
- Colour Codes. B1 for Light Gray RAL 7035. S1 for Black RAL 9005.
- Front door variation number.\*
- Rear door variation number\*
- Right Side Panel variation number.\*
- Left Side Panel variation number..
- Version information. A- Standart version. The version is changed alphabetically when any alteration made to cabinet
- Indicate how the cabinets' shipped. M1 for assembled, D1 for flat pack.

# OUTDOOR IP66 CABINETS

Suitable for IT and telecommunication solutions in outdoor conditions; protection against dust, accidental contact and water. Manufactured from DX51D+ZN275 material. Provides IP66 protection class by polyurethane seal on door. Resistant to vandalism with 3 point lock system provides. RAL7035 light gray polyester electrostatic powder paint is applied on the monoblock structure to protect the cabinet from corrosion, heat, icing and environmental influences. Insulation material available between single or double walled structure. Air condition available as option.

# OUTDOOR IP66 CABINETS

## Ventilation

2 fans with thermostat on the top sheet ensure air circulation, fans provide hot air outlet and side filters allows cool air inlet.

## Double Wall Structure

Double-walled and insulated structure, provides high protection against accidental contact, vandalism, extreme thermal conditions and environmental impact. The outer wall is 1.5mm and the inner wall is 1.0mm, both of them DX51D+ZN275 galvanized steel. Considering environmental conditions and impact; double-walled, 8mm polyurethane thermal insulation material is used in the cabinets. This insulated structure is an effective solution to extreme weather conditions. Through ventilation slots on the forehead of cabinet cold, fresh air enter and fans are discharge the air. Thus decrease the temperature inside the cabinet prevents heat which may damage the active devices.

## Water and Dust Proof

Polyurethane gasket is available on the front door and top cover.

## Locking Mechanism

Three-point locking with zinc alloy metal swing handle provides full security against vandalism.

## Protection Paint

Polyester paint which is suitable for outdoor conditions applied. It protects against Environmental influence and weather conditions. Standard colour is RAL 7035 polyester outdoor paint. As an option, primer can be applied before painting for higher protection and longevity

Hot air outlet slots

### 19" Mounting Rails

Mounting rails are adjustable along the depth of the cabinet. Made of 1.5mm DX51D+ZN275 material and "U" numbered for easy installation.

### Filter System

Through the side filter grids cold, fresh air enter and fans are discharge the heated air and humid. The cleanable and replaceable air filter is used in side filter grids

### Bottom Cable Entry

At the bottom cover of the outdoor cabinet brushed entry or cable glands entry can be used. Standard cable entry; 1XPG29, 2XPG21 and 2XØ28 PVC blind cap

# IP65/IP66 SECURITY CABINETS

## New Generation Pole Type Security Cabinet

XTND New Generation SECURITY Pole Type Cabinet, New Design, 90 degree Cornered, Hidden hinge, closing over flange double-skinned front door, double-wall, 8mm insulation material between the walls, Outer Wall 1,5mm, Inner Wall 1,0mm - Dual-Volume, Single cycle 2 way fan + thermostat ventilation system, Top Cover Hinged with Stopper, Socket Type Cable Entry 1 pcs, Camera Assembly Place 4 pcs, Camera Assembly Place Cover Plate 4 pcs, Standard Zamac 3 point handled lock, DIN Rail in appropriate size 3pcs, UPS Shelf, The fresh air inlet with removable cleanable filters, slotted ventilation compartment shelf that allows air to pass between the two compartments and dedicated shelf for the extra device / modem / switch are standard for the Cabinet.

Cable Management Rings, Lighting Module, Door switches, Heavy Duty Type Pole Assembly Kit, Clamp Type Pole Fixing kit are accessories. No power socket module is added but if requested. Plastic or Aluminium Power Socket can be supplied. RAL 7035 is Light Grey Color is standart

## Security Cabinet

AGER Security Cabinets with Pole mount version, enable protecting your valuable or sensitive equipments with its unique design. It is well protected against rain, snow, wind, sun radiation and earthquakes. With its perfect resistance to corrosion, protects your technological investments against environmental effects. There is 8mm thick neoprene isolation material.

## Isolation of Security Cabinet

Double Wall Structure with insulation is an effective solution to minimize environmental and territorial effects. The filtered panels allow ambient cold & fresh air to get in to the cabinet and reduce the internal heat naturally. Circulation fans are used to discharge the hot air from inside and by reducing heat it protects your active components.

## Cabinet Structure

Cabinets are designed as Double Wall Structure, Material is DX51D+ZN275 gr/m<sup>2</sup> zinc plated. According to EN 61587-1 / 6.4 IEC 60529 IP66 Protection class maintained based on solid body entries and water ingress. Fan and filter combinations attached provides IP54 protection class. Three Point locking system helps maintaining the IP66 protection class. Mono-block welded structure, RAL 7035 light grey polyester outdoor painting finish protects the cabinet from corrosion. Un-flammable and fire retardant painting is applied.

## Filtered and Fan System

The cabinet has a replaceable filter housing, which eliminates water and dust entry while allowing fresh air entry to the cabinet. The upper chassis of cabinet is equipped with 2 way fan including thermostat. The canopy roof is hinged and allows external access to the fan module for replacement and maintenance. Single cycle 2 way fan system allows fresh air entry from bottom and discharge accumulated heat from the ventilation slots under the canopy.

## Double Wall Structure

Double Wall and isolation infilled panels protect the equipments inside cabinet from external effects, mechanical impacts, vandalism, harsh environmental conditions. External skin is 1,5mm DX51D+ZN275 zinc plated steel material structure with nano technology, high corrosion resistance polyester outdoor electrostatic painting applied. Inner skin is 1,0mm DX51D+ZN275 zinc plated steel material with painting. Between outer and inner skins there is 8mm isolation material.

### Easy Pole Assembly

Special designed pole assembly brackets allows the cabinet to be hanged over the pole, after internal assembly is finished. Clamp Type Pole Fixing Kit is standard.

- Heavy Duty Type Pole Assembly Kit is optional

### Painting

Outdoor style polyester paint applied to resist environmental corrosive effects. It also resists to sun radiation. Standard applied color is RAL7035 Light Grey.

### Camera Assembly

There is 4 pieces camera mounting places, In standard those camera assembly provisions covered with metal plates. Mostly 1 mobile and 3 fixed cameras used in standard applications.

### DIN Rails

There are 3 pcs DIN rails in sufficient sizes which are available to place industrial devices and electrical equipments.

### Lighting

By the automatic LED lighting unit that illuminates when door is opened and allows visibility to inside of cabinets during nights or dark environment conditions. Site operations can run continuously. It can be supplied as an accessory

### Movable UPS Shelf

The wheeled and movable structure of UPS shelf allows to read the front panel of the device. It can be pushed back after the control process ends.

### Fixed Shelf

In this dual-volume product model, the partition separator is fixed as it has shelf feature. This compartment shelf is positioned between the lower and upper compartment. Slotted structure of shelf does not prevent air Ocirculation.

### Shelf for Modem, Switch, Device

There is a separate shelf structure on the upper right partition of the enclosure which allows to accommodate modem-switch or such devices.

### Corner and Top Cover Structure

90 degree corner structured. Top cover is flat type.

### Top Cover Canopy Structure

Top cover canopy system allows to maintenance cleaning and changing of fan module while the system on going inside the cabinet. Stopper mechanism is hidden inside top cover. This feature keeps the top cover open while installation or maintenance is in process on the field.

### Front door and Lock System

Hidden hinge, closing over flange double skinned front door structure is available. Standard Zamac - 3 point locking system provides maximum security and impermeability. Resistant to the extreme weather conditions Polyurethane Foam Gasket is used that provides Water and Dust Proof.

### Door Switch

To receive a warning when the front door of cabinet opened or to enable or disable other systems, door switches can be integrated. 1 or 2 switch integrations can be provided as an accessory.

### Cable Management Rings

By using the self-threaded special screw system, cable management rings - as an accessory - can be placed anywhere in the interior surface of the cabinet in desired quantities to set up cable management infrastructure

### PDU

On/off Plastic 6 way PDU can be provided as an accessory. Please refer accessory chart.

### Cable Entry

There are 3 types of cable entry. Socket type, 90 degree protected pipe type and 45 degree protected pipe type. All 3 types have feature that can be used for the same product. Socket type is used in standard configuration. In case of need for different type cable entry, please choose cable entry model that you need from accessory chart

There is 4 pieces camera mounting places, In standard those camera assembly provisions covered with metal plates. Mostly 1 mobile and 3 fixed cameras used in standard applications.

### DIN Rails

There are 2 pcs DIN rails in sufficient sizes which are available to place industrial devices and electrical equipments.

### Front Door Yapısı ve Klit Sistemi

Hidden hinge, Flange flush mounted double skin front door structure is available. barrel type - single point locking and gasket system provides maximum security and impermeability. It has a sealing gasket structure. Thanks to the excellent sealing Polyurethane foam based long life sealing system, provides excellent IP protection even cold/hot weather condition.

### Lighting

By the automatic LED lighting unit that illuminates when door is opened and allows visibility to inside of cabinets during nights or dark environment conditions. Site operations can run continuously. It can be supplied as an accessory.

### Door Switch

To receive a warning when the front door of cabinet opened or to enable or disable other systems, doors switches can be integrated. 1 or 2 switch integrations can be provided as an accessory.

### Painting

Outdoor style polyester paint applied to resist environmental corrosive effects. It also resists to sun radiation. Standard applied color is RAL7035 Light Grey.

### Top Cover Canopy Structure

Hinged top cover module allows you to operate, maintain, repair, clean, installation from outside while system runs.

### Cable Management Rings

By using the self-threaded special screw system, cable management rings - as an accessory - can be placed anywhere in the interior surface of the cabinet in desired quantities to set up cable management infrastructure.

### PDU

On/off Plastic 6 way PDU can be provided as an accessory. Please refer accessory chart.

### Cable Entry

There are 3 types of cable entry. Socket type, 90 degree protected pipe type and 45 degree protected pipe type. All 3 types have feature that can be used for the same product. 90 degree protected pipe type is used in standard configuration. In case of need for different type cable entry, please choose cable entry model that you need from accessory chart.

## New Generation **B Type MIDI** Security Pole Type Cabinet

XTND New Generation B Type MIDI SECURITY Pole Type Cabinet, 90 degree Cornered, Hidden hinge closing over flange double-skinned front door, double-wall, 8mm insulation material between the walls, Outer Wall 2,0mm, Inner Wall 1mm- Dual-Volume, Single cycle 2 way fan + thermostat ventilation system, Hinged Top Cover, Heavy Duty or Economic Clamp Type Pole Fixing kit is provided as an accessory. Socket Type Cable Entry 1 pcs of cable entry is available, 19" mounting rail CANNOT be included as the cabinet is not in 19" standards, Camera Assembly Place 4 pcs, Camera Assembly Place Cover Plate 4 pcs, Standard Zamac Single Point Lock with Handle, Cable Management Rings are provided as accessories. DIN Rail in appropriate size 3 Pcs, Lighting Module is provided as an accessory. UPS shelf is not available, slotted ventilation compartment shelf that allows air to pass between the two compartments is available. Door switches / switches are added as accessories. No power socket module is added but if requested. Plastic Power Module can be supplied (NOT 19"). The fresh air inlet removable cleanable filter from inside is available. RAL 7035 is Light Grey Color

## Security Cabinet

XTND Security Cabinets with Pole mount version, enable protecting your valuable and sensitive equipments with its unique design. It is well protected against rain, snow, wind, sun radiation and earthquakes. With its perfect resistance to corrosion, protects your technological investments against environmental effects. Overall between the inner and outer skin there is 8mm thickness isolation material.

### Isolation of Security Cabinet

To minimize environmental and territorial effects, the cabinet is designed with double skin structure, where in between there is 8mm isolation material. This isolation material is avoiding heat problems. On body there is filtered fresh air entry located, which via convection fresh air enters to cabinet, Circulation Fan Unit discharges the accumulated heat from enclosure with this structure protects the active components inside cabinet.

### Cabinet Structure

Cabinets are designed as double skin structure, Material is DX51D+ZN275 gr/m<sup>2</sup> zinc plated. According to EN 61587-1 / 6.4 IEC 60529 IP66 Protection class maintained based on Solid body entries and Water ingress. Fan and Filter combinations attached provides IP54 protection class. Fully EPDM gasketed front door is available. Zamac Type - Three Point locking system helps maintaining the IP66 protection class. Mono-block welded structure, RAL 7035 light grey polyester outdoor painting finish protects the cabinet from corrosion. Un-flammable and fire retardant painting is applied

### Double Wall Structure

Double Wall and isolation infilled panels protects the equipments inside cabinet from external effects, mechanical impacts, vandalism, harsh environmental conditions. External skin is 1,5mm DX51D+ZN275 zinc plated steel material structure with nano technology, high corrosion resistance polyester outdoor electrostatic painting applied. Inner skin is 1,0mm DX51D+ZN275 zinc plated steel material without painting. Between outer and inner skins there is 8mm isolation material.

### Corner and Top Cover Structure

90 degree corner structured. Top cover is flat type.

### Filtered and Fan System

The cabinet has a replacable filter housing , which eliminates water and dust entry while allowing fresh air entry to the cabinet. The upper chassis of cabinet is equipped with two fan including thermostat. The canopy roof is hinged and allows external access to the fan module for replacement and maintenance. Single cycle 2 way fan system allows fresh air entry from bottom and discharge accumulated heat from the ventilation slots under the canopy

### Easy Pole Assembly

Special designed pole assembly brackets allows the cabinet to be hanged over the pole, after internal assembly is finished. Clamp Type Pole Fixing Kit is standard

### Camera Assembly

There is 4 pieces camera mounting places, In standard those camera assembly provisions covered with metal plates. Mostly 1 mobile and 3 fixed cameras used in standard applications.

### DIN Rails

There are 3 pcs DIN rails in sufficient sizes which are available to place industrial devices and electrical equipments.

### Lighting

By the automatic LED lighting unit that illuminates when door is opened and allows visibility to inside of cabinets during nights or dark environment conditions. Site operations can run continuously. It can be supplied as an accessory.

### Fixed Shelf

In this dual-volume product model, the partition separator is fixed as it has shelf feature. This compartment shelf is positioned between the lower and upper compartment. Slotted structure of shelf does not prevent air circulation.

### Painting

Outdoor style polyester paint applied to resist environmental corrosive effects . It also resists to sun radiation. Standard applied color is RAL7035 Light Grey.

### Top Cover Canopy Structure

Stopper mechanism is hidden inside top cover. This feature keeps the top cover open while installation or maintenance is in process on the field.

### Front door and Lock System

Hidden hinge, closing over flange double skinned front door structure is available. Standard Zamac - 3 point locking system provides maximum security and impermeability. Resistant to the extreme weather conditions Polyurethane Foam Gasket is used that provides Water and Dust Proof.

### Door Switch

To receive a warning when the front door of cabinet opened or to enable or disable other systems, door switches can be integrated. 1 or 2 switch integrations can be provided as an accessory.

### Cable Entry

There are 3 types of cable entry. Socket type, 90 degree protected pipe type and 45 degree protected pipe type. All 3 types have feature that can be used for the same product. Socket type is used in standard configuration. In case of need for different type cable entry, please choose cable entry model that you need from accessory chart.

### Cable Management Rings

By using the self-threaded special screw system, cable management rings - as an accessory - can be placed anywhere in the interior surface of the cabinet in desired quantities to set up cable management infrastructure.

### PDU

On/off Plastic 6 way PDU can be provided as an accessory. Please refer accessory chart.

## Security Cabinet Floor Type-Pole Type

12U (19" 6U upper compartment and 6U size equivalent non 19" lower compartment - W600mm x D400/450/600mm Field Enclosure. 90 degree Cornered, Flanged system hinged door, double-wall, 8mm insulation material between the walls, Dual-Volume, Ventilation System with 2 different cycles 2Fan with Thermostat, crossfall structure Top Cover Hinged with Stopper. 6U 19" mounting rail is available at the upper compartment 1set-2 pcs. WK2 Antivandal lock with handle - 3 point locking is available. Cable Management Rings are provided as accessories. DIN Rail is supplied as an accessory. Lighting Module is provided as an accessory. UPS shelf is not available, there is a separate lockable inner cover for each compartment, there is a compartment shelf that does not make air pass between the two compartments. A dedicated shelf for the extra device / modem / switch is added as accessory. Door switch / switches are added as accessories. No power socket module is added but if requested. Choice of plastic or aluminium socket modules are supplied as accessory. The fresh air inlet removable cleanable filter from inside is available. RAL 7035 is Light Grey Color

Floor Type: Outer Wall 3 mm, Inner Wall 2 mm  
H=100mm plinth is available. At the bottom gland cable entry is available. No camera mounting hole is available, Camera connections are recommended externally.

Pole Type: Outer Wall 1,5 mm, Inner Wall 1 mm  
Heavy Duty or Economic Clamp Type Pole Fixing kit is provided as an accessory. 2 pcs of 90 degree pipe protected type cable entry is available. No camera mounting hole is available, Camera connections are recommended externally.

## Security Cabinet

XTND Field enclosures -Security Cabinets with Pole mount and Floor type versions , enable protecting your valuable and sensitive equipments with its unique design. It is well protected against to rain, snow, wind, sun radiation and earthquakes. With its perfect resistance against to corrosion, protects your technological investments against environmental effects. Overall between the inner and outer skin there is 8mm thickness isolation material.

## Isolation of Security Cabinet

Double skin structure with insulation is an effective solution to minimize environmental and territorial effects. The filtered panels allows ambient cold&fresh air to get in to the cabinet and reduces the internal heat naturally. Circulation fans are used to discharge the hot air from inside and by reducing heat it protects your active components

## Cabinet Structure

Cabinets are designed as double skin structure, Material is DX51D+ZN275 gr/m zinc plated. According to EN 61587-1 / 6.4 IEC 60529 IP66 Protection class maintain based on Solid body entries and Water ingress. Fan and Filter combinations attach provides IP54 protection class. Fully EPDM gasketed front door is available. V Antivandal lock with handle - 3 point lock helps maintaining the IP66 protection class. Mono-block welded structure, RAL 7035 light grey polyester outdoor painting finish protects the cabinet from corrosion Un-flammable and fire retardant painting applied.

## Double Wall Structure

Double Wall and isolation infilled panels protects the equipments inside cabinet from external effects, mechanical impacts, vandalism, harsh environmental conditions. Pole type; outer skin is 1.5mm, inner skin 1.0mm, floor type; outer skin 3.0mm, inner skin 2.0mm DX51D+ZN275 zinc plated steel material structure with nano technology , high corrosion resistance polyester outdoor electrostatic painting applied. DX51D+ZN275 zinc plated steel material with painting. Between outer and inner skins there is 8mm isolation material.

## Corner and Top Cover Structure

90 degree corner structured. Top cover is Crossfall Canopy.

### Easy Pole Assembly

Special designed pole assembly brackets allows the cabinet to be hung over the pole, after internal assembly is finished. Clamp Type Pole Fixing Kit is standard

### Easy Floor Assembly

For the floor type model H100mm plinth is in standard product configuration. There is louver at back side of plinth for fresh air.

### Filter and Fan System

2 way fan cycle is available. There are 2 units of 2 way fans with thermostat which are working independently on the upper and bottom sections of cabinet. The bottom 2 way fan unit takes the fresh air from the filter protected ventilation clean air inlet and discharge from the left side of the cabinet. The upper 2 way fan unit takes the fresh air from the filter protected ventilation clean air inlet and discharge from the top slots of canopy. Access to fans at bottom is possible by opening the front door, access to fans at top is possible by opening hinged top cover.

### Camera Assembly

Hence there are 2 different fan systems on the cabinet, cameras should be installed to the pole but not on the enclosure. Assembly points and camera qty can be specified according to project applications.

### DIN Rails

DIN rails in 50 cm length offered as an accessory to place industrial devices and electrical equipments.

### 19" Mounting Profile

There is mounting profile 19" 6U usable size 1,5mm thickness 1 set :2 pcs. Installed to upper section. All 19" sized accessories can be used inside cabinet. For suitable 19" accessories, you can check main catalogue.

### Fixed Shelf

In this dual-volume product model, the partition separator is fixed as it has shelf feature and blocks the air passage from compartment to compartment. This compartment shelf is positioned between the lower and upper compartment. 60\*300mm 2pcs brushed cable access are available between sections.

### Lighting

By the automatic LED lighting unit that illuminates when door is opened and allows visibility to inside of cabinets during nights or dark environment conditions. Site operations can run continuously. It can be supplied as an accessory

### Painting

Outdoor style polyester paint applied to resist are available environmental corrosive effects . It also resists to sun radiation. Standard applied color is RAL7035 Light Grey.

### Top Cover Canopy Structure

Stopper mechanism is hidden inside top cover. This feature keeps the top cover open while installation or maintenance is in process on the field.

### Front door and Lock System

In shipping configuration, Hidden hinge closing over flange double-skinned front door with the Antivandal WK2 standard 3 Points locking system handle and gasket, the front door provides maximum safety and sealing when the door is closed. It has a sealing gasket structure. Thanks to the excellent sealing Polyurethane based long life sealing system, provides excellent IP protection even cold/hot weather condition.

### Door Switch

To receive a warning when the front door of cabinet opened or to enable or disable other systems, door switches can be integrated. 1 or 2 switch integrations can be provided as an accessory.

### Cable Management Rings

By using the self-threaded special screw system cable management rings - as an accessory - can be placed anywhere in the interior surface of the cabinet in desired quantities to set up cable Management infrastructure.

### Door Switch

To receive a warning when the front door cabinet opened or to enable or disable systems, door switches can be integrated. 1 or 2 switch integrations can be provided as an accessory.

### Cable Entry

There are 3 types of cable entry. Socket 90 degree protected pipe type and 45 degree protected pipe type. All 3 types have features that can be used for the same product. The 90 degree protected pipe type cable entry is used in standard configuration. In case of need for different type cable entry, please choose cable entry model that you need in the accessory chart. For Floor Type Model, Floor gland cable entry is available at bottom or side of enclosure. 2xPG21, 1xPG29 and 2x28mm sized PVC cover is available. 70x140mm 2 pcs plastic cover plate cable entry is also available between sections.

### Inner Doors

Inner door has a contribution to EN 60529 IP66 protection class structure. Every section is designed with lockable inner door structure. It is a support to outer door against dust and water.

# FREE STANDING IP55 SERIES

Free standing IP55 industrial cabinets; 19" rack cabinets with full protection against dust, water and mechanical impacts. All necessary protection levels provided for protect the housed devices.

### High Strength

Ip55 series has the capacity of carrying heavy devices to be housed due to the extra strength carcass system in the welded monoblock structure and the surface panels made of galvanized 1.5mm material.

### Water and Dust Proof

Side, front, rear panels and top covers' sealed structure provide maximum protection against dust and water ingress.

**Cable Entry**

1xPG48 cable gland with gasket, 1xPG21 cable gland with gasket, 2xPG21 blind plugs are available on the bottom metal plate. Can be designed according to demand.

**Multiple Access**

Removable feature of all panels, allowing access from all sides.

### Front Door

Standard model is solid metal door. Optionally, glass door is available.

### Rear Door

Standard model is solid metal door. Optionally, glass door is available.

### High Security

For maximum security, front and rear doors are equipped with the 3-point handled locking system

### Air Conditioning

If requested, industrial air conditioners can be installed on the top, side, front or rear panels.

### Plinth

The 100mm high plinth at the bottom, protects the entering of cable harness. Optionally, the plinth height can be changed.

### Grounding

Grounding ensure by the connection points on all of the panels.

# FREE STANDING OPEN FRAME SERIES

Open Frame Series suitable solution for maximum cabling and networking infrastructure, Offers a more economical solution compared to the closed cabinet structure. Flat pack shipping is available

### 19" Structure

Suitable with all 19" devices, accessories and equipment.

### Usage Area

Suitable for use in no need of a closed enclosure due to security climatized and dust-free conditions. Offer easy maintaining and functional structure. Offers a more economical solution compared to the closed cabinet structure.

### Flat Pack

Open frame rack system; demounted packing structure provides low cost and economical shipping advantage.

### Ground Contact

Open frame series can be fixed to the ground. Optionally, levelling feet and castor set is available. In this way, the open frame series become suitable for all ground condition.

### Easy Access

Provide quick and easy access to the equipments
